

*Drs. AR 97/2021*

**Mandatory reporting of significant pandemic-related changes effective October 1, 2022**

Resolution of the Accreditation Council dated September 21, 2021

Significant changes to degree programs resulting from the pandemic must be reported to the Accreditation Council no later than October 1, 2022. This reporting requirement applies analogously to the provision under the old law in Section 3.6.3 of the “Rules for the Accreditation of Degree Programs and for System Accreditation.”

The Accreditation Council takes note of the notifications of changes. The substantive evaluation generally takes place during the next regular reaccreditation, but no later than the end of 2024.

The Accreditation Council will prepare a guide on significant changes.
