

Possibilities and Limitations of Online Site Visits

Decision of the Accreditation Council dated March 30, 2023

1. The Accreditation Council notes that, with the removal of conflicting legal provisions, the requirements for inspections under Section 24(5) MRVO once again apply without restriction. The Accreditation Council clarifies that an “inspection” under Section 24(5) MRVO is understood to mean an in-person on-site visit.
2. The option to waive in-person on-site inspections pursuant to Section 24(5), sentence 2, MRVO is not to be understood as a provision allowing for online inspections.
3. In system accreditation procedures, one of the two site visits may be conducted online.
